To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by this fund are:

- climate change mitigation, and
- sector and industry specific significant environmental and societal factors that would typically cause elevated ESG risks in the industry in question.

● **How did the sustainability indicators perform?**

● **...and compared to previous periods?**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Promotion of climate change mitigation was measured by monitoring the carbon intensity and carbon risk indicators of the fund. The indicators are based on Sustainalytics and Morningstar ESG-databases and methodologies. Carbon intensity was slightly higher and the fund had a slightly higher exposure to carbon risk than the Morningstar category consisting of similar funds. However, during this reporting period the carbon intensity of the fund slightly decreased and the carbon risk was on a moderate to low level. The indicators developed as follows, status in Q4 2022 and previous periods:

CARBON INTENSITY RELATIVE TO PEER GROUP

Morningstar Category: EAA Fund Property - Indirect Asia

Carbon Intensity

Carbon intensity (tCO2e/USDm in Revenues) measures the ratio of a company's greenhouse gas emissions (Scope 1 and Scope 2) to its revenues. The Fund's carbon intensity is calculated as an asset-weighted average of the individual carbon intensities of the Fund's investments. The Fund's carbon intensity is benchmarked to the Morningstar Category stated above.

CARBON INTENSITY DEVELOPMENT

CARBON RISK RELATIVE TO PEER GROUP

Morningstar Category: EAA Fund Property - Indirect Asia

Carbon Risk

The Sustainalytics Carbon Risk Rating measures the extent to which the value of an investment is impacted by the removal of fossil fuels and the transition to a low-carbon economy. The Fund's carbon risk is calculated as an asset-weighted average of the individual carbon risks of the Fund's investments. The Fund's carbon risk is benchmarked to the Morningstar Category stated above.

HOLDINGS CARBON RISK DISTRIBUTION

The adequate management and prevention of potential negative impacts caused by sector and industry specific significant environmental and societal factors that would typically cause elevated ESG risks in the industry in question, was measured by monitoring the ESG risk indicators of the fund. The indicators are based on ESG-databases and methodologies of Sustainalytics and Morningstar. In assessment of the ESG-risks the indicator takes into account to what kind of ESG-risks a company is exposed to and how well it manages those risks. Significant sources of ESG-risk vary according to sector and industry. Low ESG-risks indicate that either a company's ESG-risk exposure is minor, or that it manages its risks well.

The overall ESG-risk of the fund was moderate, and the risk level was slightly higher than in the peer group Morningstar category comprised of similar funds. The ESG-risk of the fund continued to decrease in this reporting period. The indicators developed as follows, status in Q4 2022 and previous periods:

SUSTAINABILITY RATING

The Morningstar Sustainability Rating is based on relative fund comparison according to Morningstar's methodology, where Morningstar benchmarks funds according to their current and historical sustainability risk factors. The Fund's rating relative to its peer group is measured by the number of globes ranging from five (the top performing 10%) to one (the least performing 10%).

SUSTAINABILITY RISK RELATIVE TO PEER GROUP

Global Category: Real Estate Sector Equity

Sustainability Risk Score

The Sustainalytics ESG Risk Rating measures the degree to which a company's economic value is at risk due to Environmental (E), Social (S), and Governance (G) factors. The Fund's sustainability risk is calculated as an asset-weighted average and classified on a five-point numerical scale: negligible (0-10), low (10-20), medium (20-30), high (30-40), and severe (≥ 40).

Category “#2 Other” included only currency hedges and cash positions that are necessary for the execution of the investment strategy. Minimum environmental and social safeguards did not apply to currency hedges and cash positions.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The fund’s investment process includes ESG-integration: The fund included information on environmental and social characteristics into the investment decision process and carried out positive selection of the investment targets based on environmental and social characteristics.

The fund promoted environmental and social characteristics as an active owner by voting in the general meetings of the investee companies through ISS Proxy Voting service. The votes of the fund are cast based on a sustainability-promoting voting

policy ([International Sustainability Proxy Voting Guidelines](#)). The votes are given to promote among others transparency, climate change mitigation and good governance, as applicable to the themes of each meeting and votable ballot. In 2022 the ISS Proxy Voting Service did not function for this fund due to a technical error.

In addition, the fund participated in United Banker's general stewardship and engagement activities, including the CDP-campaign investor letters and Science Based targets -initiative (<https://www.cdp.net/en/campaigns/science-based-targets>)
